## WHAT IS PRINCE2?

PRINCE2 (an acronym for PProjects IN Controlled Environments) is the International Standard Method for Project Management. Used extensively by the UK Government, PRINCE2 is also widely recognised and used in the private sector, both in the UK and internationally.

## BENEFITS OF PRINCE2

PRINCE2's formal recognition of responsibilities within a project, together with its focus on what a project is to deliver (the why, when and for whom) provides your projects with:

- A common, consistent approach
- A controlled and organised start, middle and end
- Regular reviews of progress against plan
- Assurance that the project continues to have a business justification
